OFFICIAL CONFIRMATION

To the Government Authorities of the Republic of Kazakhstan
and Other Interested Organisations

SKF hereby confirms that BC INDUSTRY LLP (Almaty, Republic of Kazakhstan) is an SKF Authorized Distributor in the Republic of Kazakhstan. The company's status is confirmed by Contract No. KAZ2049/23 dated 1 December 2023 and a valid SKF Authorized Distributor Certificate.

SKF is one of the world's leading manufacturers of bearings, seals, lubrication systems, condition monitoring solutions and engineering technologies for industrial applications.

SKF places particular importance on developing long-term relationships with its authorized distributors. Authorized distributor status is granted to companies that comply with the requirements and procedures established by SKF for its authorized distributors.

SKF authorized distributors form an important part of the manufacturer's product quality assurance system. Official supply channels help ensure product traceability, the transfer of technical knowledge to end users, compliance with SKF corporate standards and a consistent approach to warranty support.

Throughout the period of cooperation, BC INDUSTRY LLP has operated as an SKF Authorized Distributor in the Republic of Kazakhstan, supplying genuine SKF products to industrial enterprises through the manufacturer's official supply channel.

As part of its activities, BC INDUSTRY LLP provides:

* the supply of genuine SKF products;

- * traceability of the supplied products;
- * qualified product selection based on equipment operating conditions;
- * technical advice and engineering support for customers;
- * recommendations regarding the mounting, dismounting and operation of SKF products;
- * liaison with the manufacturer regarding warranty support in accordance with applicable SKF procedures.

The specialists of BC INDUSTRY LLP have practical experience in supporting industrial enterprises in the Republic of Kazakhstan and provide technical assistance with product selection, the assessment of equipment operating conditions and the improvement of bearing arrangement reliability.

By purchasing SKF products through an authorized distributor, end users receive not only genuine products from the manufacturer, but also qualified engineering support based on the technical competence of specialists, verified supply-chain traceability and compliance with SKF customer service requirements.

SKF consistently protects its intellectual property rights, the SKF brand and its authorized distribution system. The distribution of counterfeit products or products of unverified origin may pose risks to equipment reliability and the safety of industrial processes and may undermine customer confidence in the manufacturer's products.

Based on the established contractual relationship, SKF confirms that BC INDUSTRY LLP:

- * is an SKF Authorized Distributor in the Republic of Kazakhstan;
- * supplies genuine SKF products through the manufacturer's official supply channel;
- * ensures traceability of the supplied products;
- * provides qualified engineering and technical support to end users;

* conducts its activities in accordance with the requirements and procedures established by SKF for its authorized distributors.

SKF highly values its long-standing cooperation with BC INDUSTRY LLP and supports the company's activities aimed at developing a transparent, lawful and responsible industrial products market and providing enterprises in the Republic of Kazakhstan with genuine SKF products and professional technical support.

SKF supports the development of official supply channels that ensure the supply of genuine products, the transfer of the manufacturer's technical expertise, product traceability and a high standard of engineering support for end users.

This confirmation is issued by SKF in support of its authorized distributor, BC INDUSTRY LLP, for submission to the government authorities of the Republic of Kazakhstan and other interested organisations, as required.

Yours faithfully,
SKF Eurotrade AB
